Notes to financial statements

1. ORGANIZATION

Allspring Exchange-Traded Funds Trust (the “Trust”), a Delaware statutory trust organized on June 19, 2014, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (“1940 Act”). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Allspring Core Plus ETF (the “Fund”) which is a diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles (“GAAP”) which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g., taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Equity securities, exchange-traded funds and futures contracts that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee at Allspring Funds Management, LLC (“Allspring Funds Management”).

Forward foreign currency contracts are recorded at the forward rate provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee at Allspring Funds Management.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value (“NAV”).

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management’s process for determining the fair value of the portfolio of investments.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Valuation Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund’s commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Loans

The Fund may invest in direct debt instruments which are interests in amounts owed to lenders by corporate or other borrowers. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. Investments in loans may be in the form of participations in loans or

assignments of all or a portion of loans from third parties. When the Fund purchases participations, it generally has no rights to enforce compliance with the terms of the loan agreement with the borrower. As a result, the Fund assumes the credit risk of both the borrower and the lender that is selling the participation. When the Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan and may enforce compliance by the borrower with the terms of the loan agreement. Loans may include fully funded term loans or unfunded loan commitments, which are contractual obligations for future funding. Unfunded loan commitments represent the remaining obligation of the Fund to the borrower. At any point in time, up to the maturity date of the issue, the borrower may demand the unfunded portion. Unfunded amounts, if any, are marked to market and any unrealized gains or losses are recorded in the Statement of assets and liabilities.

Forward foreign currency contracts

A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreed-upon price at a future date. The Fund enters into forward foreign currency contracts to facilitate transactions in foreign-denominated securities and to attempt to minimize the risk to the Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked-to-market daily. When the contracts are closed, realized gains and losses arising from such transactions are recorded as realized gains or losses on forward foreign currency contracts. The Fund is subject to foreign currency risk and may be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency changes unfavorably. The Fund's maximum risk of loss from counterparty credit risk is the unrealized gains on the contracts. This risk may be mitigated if there is a master netting arrangement between the Fund and the counterparty.

Futures contracts

Futures contracts are agreements between the Fund and a counterparty to buy or sell a specific amount of a commodity, financial instrument or currency at a specified price and on a specified date. The Fund may buy and sell futures contracts in order to gain exposure to, or protect against, changes in interest rates and is subject to interest rate risk. The primary risks associated with the use of futures contracts are the imperfect correlation between changes in market values of securities held by the Fund and the prices of futures contracts, and the possibility of an illiquid market. Futures contracts are generally entered into on a regulated futures exchange and cleared through a clearinghouse associated with the exchange. With futures contracts, there is minimal counterparty risk to the Fund since futures contracts are exchange-traded and the exchange's clearinghouse, as the counterparty to all exchange-traded futures, guarantees the futures contracts against default.

Upon entering into a futures contract, the Fund is required to deposit either cash or securities (initial margin) with the broker in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are paid to or received from the broker each day equal to the daily changes in the contract value. Such payments are recorded as unrealized gains or losses and, if any, shown as variation margin receivable (payable) in the Statement of assets and liabilities. Should the Fund fail to make requested variation margin payments, the broker can gain access to the initial margin to satisfy the Fund's payment obligations. When the contracts are closed, a realized gain or loss is recorded in the Statement of operations.

Mortgage dollar roll transactions

The Fund may engage in mortgage dollar roll transactions through To Be Announced (TBA) mortgage-backed securities issued by Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC). In a mortgage dollar roll transaction, the Fund sells a mortgage-backed security to a financial institution, such as a bank or broker-dealer and simultaneously agrees to repurchase a substantially similar security from the institution at a later date at an agreed upon price. The mortgage-backed securities that are repurchased will bear the same interest rate as those sold, but generally will be collateralized by different pools of mortgages with different pre-payment histories. During the roll period, the Fund foregoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the forward price for the future purchase as well as by the earnings on the cash proceeds of the initial sale. Mortgage dollar rolls may be renewed without physical delivery of the securities subject to the contract. The Fund accounts for TBA dollar roll transactions as purchases and sales which, as a result, may increase its portfolio turnover rate.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has been determined to be doubtful based on consistently applied procedures and the fair value has decreased. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status. Paydown gains and losses are included in interest income.

Income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Dividend income is recognized on the ex-dividend date.

Interest earned on cash balances held at the custodian is recorded as interest income.

Income dividends and capital gain distributions from investment companies are recorded on the ex-dividend date. Capital gain distributions from investment companies are treated as realized gains.

Distributions to shareholders

Distributions to shareholders are recorded on the ex-dividend date and paid from net investment income monthly and any net realized gains are paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. GAAP. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to qualify as a regulated investment company by distributing substantially all of its investment company taxable and tax-exempt income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the fiscal year since commencement of operations will be subject to examination by the federal and Delaware revenue authorities. The Fund is not subject to examination by federal and state tax authorities for taxes before 2024, the year the Fund commenced operations.

In-kind redemptions: For financial reporting purposes, in-kind redemptions are treated as sales of securities resulting in realized capital gains or losses to the Fund. Because such gains or losses are not taxable to the Fund and are not distributed to existing Fund shareholders, the gains or losses are reclassified from accumulated net realized gain (loss) to paid-in capital at the end of the Fund's tax year. These reclassifications have no effect on net assets or NAV per share.

As of February 28, 2025, the aggregate cost of all investments for federal income tax purposes was \$245,331,175 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$4,063,800
Gross unrealized losses	(361,944)
Net unrealized gains	\$3,701,856

Capital share transactions

The Fund issues and redeems its shares, at NAV, only in aggregations of a specified number of shares or multiples thereof ("Creation Units"). Except when aggregated in Creation Units, shares of the Fund are not redeemable. Transactions in capital shares for the Fund are disclosed in detail in the Statement of changes in net assets. The consideration for the purchase of Creation Units of a Fund may be for cash or consist of the in-kind deposit of a designated portfolio of securities and a specified amount of cash. Authorized participants purchasing and redeeming Creation Units may pay a purchase transaction fee and a redemption transaction fee directly to the Trust and/or custodian, to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units, including Creation Units for cash. An additional variable fee may be charged for certain transactions. Such variable charges, if any, are included in "Proceeds from shares sold" and "Payments for shares redeemed" in the Statement of changes in net assets.

When an authorized participant fails to deliver one or more of the securities within a designated basket (in the case of a subscription), fails to deliver the Fund shares (in the case of a redemption), or is required by the Fund, prior to settlement, to accommodate the trading of foreign securities in local markets, the Fund may require the authorized participant to deliver and maintain cash collateral in accordance with the authorized participant agreement. In the event that the authorized participant fails to deliver all or a portion of the applicable deposit securities or Fund securities, the Fund may exercise control over such collateral pursuant to the agreement with the authorized participant in order to purchase the applicable securities.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of February 28, 2025:

Futures contracts and forward foreign currency contracts are reported at their cumulative unrealized gains (losses) at measurement date as reported in the tables following the Portfolio of investments. For futures contracts, the current day's variation margin is reported on the Statement of assets and liabilities. All other assets and liabilities are reported at their market value at measurement date.

Additional sector, industry or geographic detail, if any, is included in the Portfolio of investments.

At February 28, 2025, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Allspring Funds Management is entitled to receive an annual unitary management fee, generally payable monthly, in an amount equal to 0.30% of the average daily net assets of the Fund. Pursuant to the unitary management fee arrangement, Allspring Funds Management has agreed to pay all expenses incurred by, and appropriately allocated to, the Fund, excluding only: the management fee payable to Allspring Funds Management, brokerage expenses and other expenses incurred in connection with the execution of portfolio transactions; interest charges on any borrowings, dividends and other expenses on securities sold short; taxes; payments under the Fund's Rule 12b-1 plan; proxy and shareholder meeting expenses; litigation expenses; extraordinary expenses; and acquired fund fees and expenses.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate of 0.125% of the Fund's average daily net assets of the Fund.

For the period from December 4, 2024 (commencement of operations) to February 28, 2025, the management fee was equivalent to an annual rate of 0.30% of the Fund's average daily net assets.

Distribution fee

Allspring Funds Distributor, LLC (the “Distributor”), the principal underwriter, an affiliate of Allspring Funds Management, serves as the exclusive distributor of the Fund’s shares. The Distributor does not maintain a secondary market in the Fund’s shares. The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act pursuant to which the Fund is authorized to pay fees at an annual rate of up to 0.25% of the Fund’s average daily net assets for the sale and distribution of the Fund’s shares. The Fund’s Board of Trustees has determined not to implement a distribution fee pursuant to the distribution plan at this time. The distribution fee may only be imposed after approval by the Fund’s Board of Trustees.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions for the period from December 4, 2024 (commencement of operations) to February 28, 2025.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding short-term securities, for the period from December 4, 2024 (commencement of operations) to February 28, 2025 were as follows:

PURCHASES AT COST			SALES PROCEEDS	
U.S. GOVERNMENT	NON-U.S. GOVERNMENT	IN-KIND	U.S. GOVERNMENT	NON-U.S. GOVERNMENT
\$265,417,816	\$120,573,321	\$1,537,939	\$166,029,599	\$9,825,263

6. DERIVATIVE TRANSACTIONS

During the period from December 4, 2024 (commencement of operations) to February 28, 2025, the Fund entered into futures contracts to speculate on interest rates and to help manage the duration of the portfolio. The Fund also entered into forward foreign currency contracts for economic hedging purposes.

The volume of the Fund’s derivative activity during the period from December 4, 2024 (commencement of operations) to February 28, 2025 was as follows:

Forward foreign currency contracts

Average contract amounts to buy	\$ 495,083
Average contract amounts to sell	5,500,016

Futures contracts

Average notional balance on long futures	\$8,628,932
Average notional balance on short futures	2,329,276

A summary of the location of derivative instruments on the financial statements by primary risk exposure is outlined in the following tables.

The fair value of derivative instruments as of February 28, 2025 by primary risk type on the Statement of assets and liabilities was as follows for the Fund:

	INTEREST RATE RISK	FOREIGN CURRENCY RISK	TOTAL
Asset derivatives			
Forward foreign currency contracts	\$ 0	\$ 74,198	\$ 74,198
Futures contracts	89,029*	0	89,029

Futures contracts	78,707*	0	78,707
	\$78,707	\$150,914	\$229,621

* Amount represents the cumulative unrealized gains (losses) as reported in the table following the Portfolio of investments. For futures contracts, only the current day’s variation margin as of February 28, 2025 is reported separately on the Statement of assets and liabilities.

The effect of derivative instruments on the Statement of operations for the period from December 4, 2024 (commencement of operations) to February 28, 2025 was as follows:

	INTEREST RATE RISK	FOREIGN CURRENCY RISK	TOTAL
Net realized gains (losses) on derivatives			
Forward foreign currency contracts	\$ 0	\$ 16,969	\$ 16,969
Futures contracts	179,666	0	179,666

For certain types of derivative transactions, the Fund has entered into International Swaps and Derivatives Association, Inc. master agreements (“ISDA Master Agreements”) or similar agreements with approved counterparties. The ISDA Master Agreements or similar agreements may have requirements to deliver/deposit securities or cash to/with an exchange or broker-dealer as collateral and allows the Fund to offset, with each counterparty, certain derivative financial instrument’s assets and/or liabilities with collateral held or pledged. Collateral requirements differ by type of derivative. Collateral or margin requirements are set by the broker or exchange clearinghouse for exchange traded derivatives while collateral terms are contract specific for over-the-counter traded derivatives. Cash collateral that has been pledged to cover obligations of the Fund under ISDA Master Agreements or similar agreements, if any, are reported separately in the Statement of assets and liabilities. Securities pledged as collateral, if any, are noted in the Portfolio of investments. With respect to balance sheet offsetting, absent an event of default by the counterparty or a termination of the agreement, the reported amounts of financial assets and financial liabilities in the Statement of assets and liabilities are not offset across transactions between the Fund and the applicable counterparty. A reconciliation of the gross amounts on the Statement of assets and liabilities to the net amounts by counterparty, including any collateral exposure, for OTC derivatives is as follows:

COUNTERPARTY	GROSS AMOUNTS OF ASSETS IN THE STATEMENT OF ASSETS AND LIABILITIES	AMOUNTS SUBJECT TO NETTING AGREEMENTS	COLLATERAL RECEIVED	NET AMOUNT OF ASSETS

7. BANK BORROWINGS

The Trust, Allspring Funds Trust (excluding the money market funds), Allspring Master Trust and Allspring Variable Trust are parties to a \$275,000,000, revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the period from December 4, 2024 (commencement of operations) to February 28, 2025, there were no borrowings by the Fund under the agreement.

8. INDEMNIFICATION

Under the Fund’s organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund’s organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund’s maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. OPERATING SEGMENTS

The Fund has adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The President of the Fund acts as the Fund's CODM. For the periods presented, the Fund operated as a single operating segment. The CODM monitors the operating results of the Fund as a whole and the Fund's long-term strategic asset allocation from which it derives its revenue is determined as outlined in the Fund's prospectus which is executed by the Fund's portfolio management team. The portfolio composition, total return and expense ratios, and the components of total increase/decrease in net assets are used by the CODM to assess the segment's performance and to make resource allocation decisions for the Fund's single segment. This information is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment revenue and expenses are listed on the accompanying Statement of operations.
