- Variable rate investment. The rate shown is the rate in effect at period end.
- The security is issued in zero coupon form with no periodic interest payments.
- The coupon of the security is adjusted based on the principal and/or interest payments received from the underlying pool of mortgages as well as the credit quality and the actual prepayment speed of the underlying mortgages. The rate shown is the rate in effect at period end.
- The security is purchased on a when-issued basis.
- Investment in an interest-only security that entitles holders to receive only the interest payments on the underlying mortgages. The principal amount shown is the notional amount of the underlying mortgages. The rate represents the coupon rate.
- 144A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of
- The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.
- The rate represents the 7-day annualized yield at period end.
- ## All or a portion of this security is segregated as collateral for when-issued securities.

Investments in affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were affiliates of the Fund at the end of the period were as follows:

	VALUE, BEGINNING OF PERIOD	PURCHASES	SALES PROCEEDS	NET REALIZED GAINS (LOSSES)	NET CHANGE IN UNREALIZED GAINS (LOSSES)	VALUE, END OF PERIOD	SHARES, END OF PERIOD	INCOME FROM AFFILIATED SECURITIES

Notes to financial statements

1. ORGANIZATION

Allspring Funds Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, Financial Services - Investment Companies. These financial statements report on the Allspring Government Securities Fund (the "Fund") which is a diversified series of the Trust.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles ("GAAP") which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g., taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Futures contracts that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price.

Investments in registered open-end investment companies (other than those listed on a foreign or domestic exchange or market) are valued at net asset value.

Investments which are not valued using the methods discussed above are valued at their fair value, as determined in good faith by Allspring Funds Management, LLC ("Allspring Funds Management"), which was named the valuation designee by the Board of Trustees. As the valuation designee, Allspring Funds Management is responsible for day-to-day valuation activities for the Allspring Funds. In connection with these responsibilities, Allspring Funds Management has established a Valuation Committee and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities. On a quarterly basis, the Board of Trustees receives reports of valuation actions taken by the Valuation Committee. On at least an annual basis, the Board of Trustees receives an assessment of the adequacy and effectiveness of Allspring Funds Management's process for determining the fair value of the portfolio of investments.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund's commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Futures contracts

Futures contracts are agreements between the Fund and a counterparty to buy or sell a specific amount of a commodity, financial instrument or currency at a specified price and on a specified date. The Fund may buy and sell futures contracts in order to gain exposure to, or protect against, changes in interest rates and is subject to interest rate risk. The primary risks associated with the use of futures contracts are the imperfect correlation between changes in market values of securities held by the Fund and the prices of futures contracts, and the possibility of an illiquid market. Futures contracts are generally entered into on a regulated futures exchange and cleared through a clearinghouse associated with the exchange. With futures contracts, there is minimal counterparty risk to the Fund since futures contracts are exchange-traded and the exchange's clearinghouse, as the counterparty to all exchange-traded futures, guarantees the futures contracts against default.

Upon entering into a futures contract, the Fund is required to deposit either cash or securities (initial margin) with the broker in an amount equal to a certain percentage of the contract value. Subsequent payments (variation margin) are paid to or received from the broker each day equal to the daily changes in the contract value. Such payments are recorded as unrealized gains or losses and, if any, shown as variation margin receivable (payable) in the Statement of assets and liabilities. Should the Fund fail to make requested variation margin payments, the broker can gain access to the initial margin to satisfy the Fund's payment obligations. When the contracts are closed, a realized gain or loss is recorded in the Statement of operations.

Mortgage dollar roll transactions

The Fund may engage in mortgage dollar roll transactions through To Be Announced (TBA) mortgage-backed securities issued by Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC). In a mortgage dollar roll transaction, the Fund sells a mortgage-backed security to a financial institution, such as a bank or broker-dealer and simultaneously agrees to repurchase a substantially similar security from the institution at a later date at an agreed upon price. The mortgage-backed securities that are

repurchased will bear the same interest rate as those sold, but generally will be collateralized by different pools of mortgages with different pre-payment histories. During the roll period, the Fund foregoes principal and interest paid on the securities. The Fund is compensated by the difference between the current sales price and the forward price for the future purchase as well as by the earnings on the cash proceeds of the initial sale. Mortgage dollar rolls may be renewed without physical delivery of the securities subject to the contract. The Fund accounts for TBA dollar roll transactions as purchases and sales which, as a result, may increase its portfolio turnover rate.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has been determined to be doubtful based on consistently applied procedures and the fair value has decreased. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status. Paydown gains and losses are included in interest income.

Interest earned on cash balances held at the custodian is recorded as interest income.

Distributions to shareholders

Distributions to shareholders from net investment income are declared daily and paid monthly. Distributions from net realized gains, if any, are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. GAAP. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns, as applicable, for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of February 28, 2025, the aggregate cost of all investments for federal income tax purposes was \$416,922,497 and the unrealized gains (losses) consisted of:

Gross unrealized gains \$ 2,449,537 Gross unrealized losses (32,434,003)

Net unrealized losses \$ (29,984,466)

As of August 31, 2024, the Fund had capital loss carryforwards which consisted of \$32,854,479 in short-term capital losses and \$25,383,908 in longterm capital losses.

Class allocations

The separate classes of shares offered by the Fund differ principally in applicable sales charges, distribution, shareholder servicing, and administration fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1—quoted prices in active markets for identical securities
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of February 28, 2025:

	QUOTED (LEVI		OTHER SIGNIFICAN OBSERVABLE INPUT (LEVEL 2)			TOTAL
Assets						
Investments in:						
Agency securities	\$	0	\$286,238,420	\$0	\$28	6,238,420
Asset-backed securities		0	2,900,804	0		2,900,804
Corporate bonds and notes		0	10,834,760	0	1	0,834,760
Non-agency mortgage-backed securities		0	16,608,303	0	1	6,608,303
U.S. Treasury securities	45,55	1,419	7,947,457	0	5	3,498,876
Short-term investments						
Investment companies	16,67	5,940	0	0	1	6,675,940
	62,22	7,359	324,529,744	0	38	6,757,103
Futures contracts	22	7,268	0	0		227,268
Total assets	\$62,45	4,627	\$324,529,744	\$0	\$38	6,984,371
Liabilities						
Futures contracts	\$ 4	6,340	\$ 0	\$0	\$	46,340
Total liabilities	\$ 4	6,340	\$ 0	\$0	\$	46,340

Futures contracts are reported at their cumulative unrealized gains (losses) at measurement date as reported in the tables following the Portfolio of investments. For futures contracts, the current day's variation margin is reported on the Statement of assets and liabilities. All other assets and liabilities are reported at their market value at measurement date.

Additional sector, industry or geographic detail, if any, is included in the Portfolio of investments.

At February 28, 2025, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Allspring Funds Management, a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Allspring Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Allspring Funds Management is entitled to receive a management fee, which is generally paid monthly, at the following annual rate based on the Fund's average daily net assets:

AVERAGE DAILY NET ASSETS	MANAGEMENT FEE
First \$500 million	0.450%
Next \$500 million	0.425
Next \$2 billion	0.400
Next \$2 billion	0.375
Next \$5 billion	0.340
Over \$10 billion	0.320

For the six months ended February 28, 2025, the management fee was equivalent to an annual rate of 0.45% of the Fund's average daily net assets.

Allspring Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Allspring Funds Management. Allspring Global Investments, LLC, an affiliate of Allspring Funds Management and a wholly owned subsidiary of Allspring Global Investments Holdings, LLC, is the subadviser to the Fund and is entitled to receive a fee from Allspring Funds Management at an annual rate starting at 0.20% and declining to 0.10% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Allspring Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account servicers and record-keepers. As

compensation for its services under the class-level administration agreement, Allspring Funds Management receives an annual fee which is calculated based on the average daily net assets of each class and generally paid monthly, as follows:

	CLASS-LEVEL ADMINISTRATION FEE
Class A	0.15%
Class C	0.15
Administrator Class	0.10
Institutional Class	0.08

Waivers and/or expense reimbursements

Allspring Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Allspring Funds Management will waive fees and/or reimbursed expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Allspring Funds Management has contractually committed through December 31, 2025 to waive fees and/or reimburse expenses to the extent necessary to cap the Fund's expenses. Prior to or after the commitment expiration date, the cap may be increased or the commitment to maintain the cap may be terminated only with the approval of the Board of Trustees. As of February 28, 2025, the contractual caps are as follows:

	EXPENSE RATIO CAPS
Class A	0.84%
Class C	1.59
Administrator Class	0.64
Institutional Class	0.48

Distribution fee

The Trust has adopted a distribution plan for Class C shares pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class C shares and paid to Allspring Funds Distributor, LLC ("Allspring Funds Distributor"), the principal underwriter, an affiliate of Allspring Funds Management, at an annual rate up to 0.75% of the average daily net assets of Class C shares. Such fees are generally paid on a monthly basis.

In addition, Allspring Funds Distributor is entitled to receive the front-end sales charge from the purchase of Class A shares and a contingent deferred sales charge on the redemption of certain Class A shares. Allspring Funds Distributor is also entitled to receive the contingent deferred sales charges from redemptions of Class C shares. For the six months ended February 28, 2025, Allspring Funds Distributor received \$480 from the sale of Class A shares. No contingent deferred sales charges were incurred by Class A and Class C shares for the six months ended February 28, 2025.

Shareholder servicing fees

The Trust has entered into contracts with one or more shareholder servicing agents, whereby Class A, Class C and Administrator Class are charged a fee at an annual rate up to 0.25% of the average daily net assets of each respective class. These fees are generally paid on a monthly basis. A portion of these total shareholder servicing fees were paid to affiliates of the Fund.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund did not have any interfund transactions during the six months ended February 28, 2025.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding short-term securities, for the six months ended February 28, 2025 were as follows:

PURCHAS	PURCHASES AT COST		SALES PROCEEDS	
U.S. GOVERNMENT	NON-U.S. GOVERNMENT	U.S. GOVERNMENT	NON-U.S. GOVERNMENT	
\$132 445 888	\$41 775	\$206 721 241	\$57.394	

6. DERIVATIVE TRANSACTIONS

During the six months ended February 28, 2025, the Fund entered into futures contracts to manage duration and yield curve exposures. The Fund had an average notional amount of \$92,164,067 in long futures contracts and \$7,378,422 in short futures contracts during the six months ended February 28, 2025.

The fair value, realized gains or losses and change in unrealized gains or losses, if any, on derivative instruments are reflected in the corresponding financial statement captions.

7. BANK BORROWINGS

The Trust (excluding the money market funds), Allspring Exchange-Traded Funds Trust, Allspring Master Trust and Allspring Variable Trust are parties to a \$275,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate or the overnight bank funding rate in effect on that day plus a spread. In addition, an annual commitment fee based on the unused balance is allocated to each participating fund.

For the six months ended February 28, 2025, there were no borrowings by the Fund under the agreement.

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. OPERATING SEGMENTS

The Fund has adopted FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The President of the Fund acts as the Fund's CODM. For the periods presented, the Fund operated as a single operating segment. The CODM monitors the operating results of the Fund as a whole and the Fund's long-term strategic asset allocation from which it derives its revenue is determined as outlined in the Fund's prospectus which is executed by the Fund's portfolio management team. The portfolio composition, total return and expense ratios, and the components of total increase/decrease in net assets are used by the CODM to assess the segment's performance and to make resource allocation decisions for the Fund's single segment. This information is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment revenue and expenses are listed on the accompanying Statement of operations.

Other information

Proxy voting information

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available, upon request, by calling 1-866-259-3305, visiting our website at allspringglobal.com, or visiting the SEC website at sec.gov. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at allspringglobal.com or by visiting the SEC website at sec.gov.

Quarterly portfolio holdings information

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at sec.gov. The Fund's portfolio holdings information is also available on our website at allspringglobal.com.
